
Data Sheet

sdAb anti-Mouse IgG1, Biotin labelled

Catalog No.

N2002-Biotin

Identity	Camelid sdAb anti-Mouse IgG1; Clone 10A4 N- and C-terminal Biotin
Data	Mr: 15.9 kD Molar extinction coefficient (280nm): 24200/(M*cm)
Content	250 µg Biotin conjugated sdAb in 250 µL PBS
Reactivity	> 90%
Storage	Up to 6 month: -80 °C
Specificity	Recognizes specifically Mouse IgG1 subtype Does not cross-react with antibodies from species like: Rat, Guinea Pig, Rabbit, Chicken or Goat.

For more information please visit our web page at www.nano-tag.com

To be used *in vitro* / for research only.
Non-toxic, non-hazardous, non-infectious.
